

RM-10335 will allow our Hispanic broadcasting company to better serve our market. We broadcast local news and do community service on the Telemundo affiliates in Phoenix and Tucson, Az. Our Phoenix station is an LPTV Class A. When it is not locally carried by cable/satellite, Phoenix has only one local Hispanic voice to serve that 9th largest Hispanic community in the U.S., as there is only one full service Hispanic programmed local broadcast station in the market. All stations should have the same geographic exclusivity.
